Re: [Client's name]

Dear Mr. Mange:

I have seen and treated [client's name] \_\_\_\_\_  
for \_\_\_\_\_ [days, weeks, months, years]. I am  
familiar with [client's name] \_\_\_\_\_'s medical  
history and have personally examined him/her.

I have recently reviewed a DVD of police officers  
administering Standardized Field Sobriety tests ("SFSTs")  
to [client's name] \_\_\_\_\_.

I am only offering my opinion with regard to the "walk  
and turn," the "one leg stand," and the "head tilt"  
(Rhombert balance) tests. I am not offering an opinion on  
how the officer conducted the horizontal gaze nystagmus  
test because my field of specialty is neither neurology nor  
ophthalmology. It is my opinion that [client's name]  
\_\_\_\_\_ 's performance on the SFSTs is consistent  
with, and could have been caused by [client's name]  
\_\_\_\_\_ 's condition.

My diagnosis of [client's name] \_\_\_\_\_ 's  
condition is \_\_\_\_\_.

Thank you for your attention in this matter. If you  
have any questions or concerns, please do not hesitate to  
contact me at the above address.

Sincerely,

[Doctor's name]
